Emoji	Code	Emoji	Code	Emoji	Code
	:smirk:		:heart_eyes:		:kissing_heart:
	:kissing_closed_eyes:		:flushed:		:relieved:

## How to Use

To use any emoji, simply copy the markdown code and paste it where you'd like the emoji to appear in your text or project.

## Interactive Copy (Optional)

For an interactive experience, consider adding a web-based emoji picker or a script like below to allow users to copy the emoji code:

```
<script>
function copyToClipboard(text) {
  navigator.clipboard.writeText(text).then(() => {
    alert(`Copied: ${text}`);
  });
}
</script>
```
